

The [Institute for Strategy, Technology and Organization \(ISTO\)](#) at the LMU School of Management in Munich invites expressions of interest for a

Postdoctoral Position in Strategy and Technology

The successful candidate will be part of an interdisciplinary and international research group comprising management and economics scholars. The position holder is expected to engage in developing ambitious research projects, publish in top academic journals, as well as contribute to the teaching excellence of the institute. The successful candidate should also take an active role in collaborating with the faculty and PhD students and participate in the development of the group.

Prerequisites for this position are a doctoral degree (completed or about to be completed from a reputable university) in a relevant field, outstanding research, and capacity for teamwork. Empirical research interests in the areas of Strategy and Technology are preferred, and an ability to work with quantitative firm- or individual-level data is essential.

The position is a fixed-term appointment for the duration of two years, with a possibility of extension of one year pending successful evaluation. Candidates are encouraged to apply for a Marie Curie Individual Fellowship (https://ec.europa.eu/research/mariecurieactions/actions/individual-fellowships_en) if eligible. A conversion to an indefinite position (tenure track) is not possible. The starting date for the appointment can be set upon mutual agreement.

ISTO offers a dynamic and international environment, with research and travel budget available for the members of the institute. The Institute for Strategy, Technology and Organization (ISTO) also participates in the [Organizational Research Group \(ORG\)](#), organizing regular [seminar series](#) and hosting leading international scholars.

LMU Munich provides newly appointed faculty with various types of support, including welcome services and assistance for dual career for couples.

To be considered, please send an expression of interest with a package of usual documents by **25th August** to **Dr. Giulia Solinas** (g.solinas@lmu.de). For informal enquiries, please contact Professor **Tobias Kretschmer** (Head of the Institute) (t.kretschmer@lmu.de). We intend to have initial virtual meetings with interested candidates in early September.

LMU Munich is an equal opportunity employer and intends to enhance the diversity of its faculty. Further, in the case of essentially equal qualifications, applicants with impairments will be given preference. The option of part-time employment is available in principle. We encourage female candidates to apply.
